

DEAR STUDENT PARACHUTIST

You have decided to participate in parachuting (skydiving) course so The Finnish Aeronautical Association (FAA) warmly welcomes you to the world of aviation. In this paper, we introduce our membership benefits which you will get as a member of FAA.

MEMBERSHIP BENEFITS

Magazine

You will receive the ILMAILU magazine delivered to your home address 8 times a year. This magazine will help you to stay current with international aviation events as well as tell you what is happening in Finnish skies. ILMAILU will also broaden your knowledge of aviation in general.

Third party liability insurance

Please note that this document is an unofficial translation and that FAA assumes NO responsibility for errors. For more insurance details in all insurance matters contact the OP Vakuutus Oy insurance company.

As a member organization of The Finnish Olympic Committee FAA has made an agreement about third party liability insurance.

The insurance is valid when the skydiver has paid the membership fee of FAA and his/her permanent residence is in Finland. It covers damage to property or to persons (third party) caused by a skydiver, if he/she is deemed to be responsible. Insurance number is 16-385-954-5.

The insurance is valid also during competitions and demo jumps in Europe. The maximum indemnity is one million euros and deductible is 600 euros. You can get an insurance certificate at FAA's office. This insurance is so called secondary insurance. If a skydiver has a home or travel insurance which covers damage it is the primary insurance.

License

After student training (minimum 25 jumps) you can get skydive A-license. License fee is included in FAA member fee. FAA admits about 700 skydive license per year.

Accident insurance for parachutists

Membership in FAA includes also a **collective accident insurance** (insurance number is 06-21893). Please note that normal accident insurances do not usually cover parachuting activities.

This insurance covers all the recreational aviation branches of FAA and is valid in competition as well. The insurance period is 1.1.–31.12. The insurance is valid also abroad (trips under 3 months) in all countries that comply with international aviation regulations.

Indemnities: medical coverage up to 15 000 euros, disability up to 30 000 euros and death up to 8 500 euros and deductible is 100 euros. There is no age limit but your permanent residence must be in Finland.

HOW TO JOIN THE FINNISH AERONAUTICAL ASSOCIATION (FAA)

Joining FAA happens differently in different clubs. Ask your instructor whether you will automatically be made a member of FAA before your first jump (this isn't necessarily the case). If not, ask him/her how to join FAA and get our membership benefits.

Membership fees of new members in 2017

The amount of membership fee depends on the joining time. The reduction in membership fees is possible only when joining FAA for the first time.

Joining time	Adult	Youth member; birth year 1999 or later	Family member, active; no magazine
January–March	81 €	36 €	57 €
April–June	73 €	33 €	57 €
July–September	66 €	30 €	57 €
October–December	60 €	27 €	57 €

Payment information

BENEFITOR:	Suomen Ilmailuliitto ry.
PAYMENT ACCOUNT:	IBAN: FI46 8000 1400 2207 38 when paying abroad use also BIC: DABAFIHH
